Parlez à un membre de l'équipe Aceable à www.aceable.com Texas TDLR State Provider #116 California DMV Provider #E2017 Illinois Approved Course #3352 Florida TLSAE Code #NR2 Ohio Course #1462 Nevada DMV School License #PRDS00046773 Pennsylvania - Licensed by the Department of Education Aceable est approuvé par le Florida Department of Highway Safety, California DMV, Illinois Secretary of State (DMV), Texas Department of Licensing and Regulation (TDLR), et le Texas DPS, Ohio BMV, Nevada Department of Motor Vehicles, puis puis Department of Education. In many states the DMV (Department of Motor Vehicles) can also be called DOL, DOT, MVDL, DPS, DVS, HSMV, Secretary of State, MVS, OMV, BMV, DDS and RMV. Ed Drivers can be called Drivers Education, TLSAE (Traffic Law and Substance Abuse Education Course), Florida Drug and Alcohol Training and Awareness (DATA), Driver Training, Driver Education, Student Driving, Texas Drivers Ed, California Drivers Ed or Driving Lessons, Illinois Secretary of State (DMV). Oct 28, 2020 Version 2.21 Some UI settings for some of our courses. If the course has complicated steps before or after completing the course, we're now helping you guide through the process. I would recommend this application because it is so useful and I never knew it was so easy to get a permit this way. Ace was so nerdy, but that's what made Aceable different from the rest of the ed ed apps driver! Ace was nerdy but funny and I enjoyed the memes 100%, the stories in the videos were very educational and made you realize about how driving can be a privilege not a right because there are a lot of careless drivers out there on the roads, but Aceable makes their students learn the long affects of being one of those bad drivers! Aceable must be one of my best purchases I've ever bought! At first, when I saw the cost, I wasn't sure if I made the right choice, but I saw later that it was worth every penny that this app is one of the most educational/entertaining apps I've ever used! Aceable is not a regular application that if you are wrong, it will make you take it back. Aceable is there to help you and he wants you to be a great driver because the creators know that driving can give you more freedom, but it can also be very dangerous! All I can say is thank Aceable for the amazing journey! 🙏🏻 I never thought it was so easy to get a driver's license that you are so much with this online school, even if you don't get the right answers, they are not there to miss you here to help you if you get the wrong answers several times finally you will get the right answer and you remember the right answer at the end of this trip. I highly recommend this for everyone, I got my driver's license thanks for this application my dream came true once I got my driver's license, I was so happy now that I could be a responsible citizen and know all the rules when it's about driving and I told my brother if you really want your driver's license, I recommend you try this app he did and now he's on his way to getting his driver's license this app worth the money thanks guys for the great work you guys put in and I think myself for the great work I did achieve my goals again guys! Hi Edwin! We are pleased to send you additional resources to help you pass the exam. We certainly don't want it to be a Experience. Please contact our support@aceable.com support team for these additional resources. Don't expect to take this test without reading the book. When I downloaded the app, I expected that all the important rules of the road would be covered in a way that would keep me the information, but I was wrong. The app doesn't prepare you for real questions about the license test (or at least mine in California) and instead of concept books in your head that end up being useless on the actual exam. Much of the information is repetitive and just a waste of time. And practice tests lead you to a false sense of security. When I took the tests, for the most part, I had 90s and even got a 100 on the training test. The lowest score I've ever had was an 85, which is still being passed. For this reason, I entered the test thinking that I would definitely pass. I put a lot of work into completing this work and never faltered when it came to reading the slides and completing the practice tests, and it was all for nothing. Even a woman at DMV told me that children who use online resources instead of reading books tend to fail the first time. If it is not practical for you to take real courses, I recommend you take this course just to complete the 30 hours of instruction required by the DMV, but READ THE LIVE. The book will end up being much more beneficial than using Aceable. Hello! I am sorry that you did not feel that the course was preparing you for the permit exam. The material we include in the course comes directly from state requirements, but we are always looking for ways to improve a student's experience. We would like to hear any specific suggestions you have on the course or practice tests. You can contact us by sending our customer support support@aceable.com. We are truly sorry for your negative experience and we look forward to having your own eyes! Developer Website App Support Privacy Policy Aceable is one of the newest online traffic schools, but it has quickly become one of the top rated traffic schools. Now that Aceable is a certified online traffic school in several states (including Texas and California), we thought it was time to get an Aceable review on the site. To see if Aceable is certified in your specific condition, click here. What we love about Aceable For years now, we say you should stay with the online traffic schools that have been around for a while. This advice has worked well over the years because fly-by-night online traffic schools would appear all the way leading to literally hundreds of very poor quality online traffic schools in California, mostly run by single individuals. So, in order to avoid enrolling in one of these shoas of poor quality online traffic schools, we have always recommended staying with the great players who have been around for decades. And then Aceable came and made all this advice useless. The thing is that Aceable hasn't been around for 10 years and they're not there. There. Recognized in many places yet, however, Aceable is without a doubt the best single online traffic school you can sign up for. But what makes Aceable different from all the other new online traffic schools that appear all the time? The individuals, and the money, behind. Let me explain... Aceable is operated by a start-up that has already received millions in venture capital. They realized that the online traffic school and driver training programs were becoming horribly obsolete, so they created their own brand new courses from scratch, and they built a special version for any device you might want to use. What really matters though is that Aceable is fast, easy, cheap, guaranteed, offers the best platform/technology, and they also have the best customer service. I mean, you can talk to their customer service on Instagram if you wanted to (don't worry, they have email and phone and all sorts of other ways to contact them, too). So I guess we're a little biased here and our opinion is easily showing through, but we don't see much of a reason not to sign up for Aceable. What we don't like about Aceable As mentioned above, we really think Aceable is the absolute best online traffic school you can sign up for now. Our only real complaint is that they are not certified in more states, but as a new traffic school, they are working on more state approvals. You can see if Aceable is currently certified in your state here. Other than that, most of our complaints about Aceable has to do with the mundane task of completing the traffic school, not so much the provider in this case. The course is the fastest legally allowed course for each state where they are approved and they help you to do so quickly. There's not much you don't like about Aceable. How aceable works While things are slightly different depending on the state in which you take the traffic school, the Aceable Online Traffic School is set up in the same basic way. Each online traffic school course with Aceable is divided into several sections, usually 6. After each section is a super easy quiz that you will need to pass before you can move on to the next section. You can take the quizzes as many times as you need, but these are just a few questions and you should be able to get them correctly, even without seeing the hardware. If you don't get them well, frankly, you need to look at the hardware a bit anyway! At the end of all sections, you will need to take a final exam in some but not in all states. Usually you will only have 2 chances to pass the final exam, but Aceable has a pass rate above 99%, so that's not a huge concern. How long does the aceable online traffic school course take to finish? You can go through Aceable at your own pace. If you really want to take your time going through it, you can basically take as long as you want. But what you probably really want to know is, how fast can I do it? I guess that's what you want to know... In some states, these California, there is no required course time frame. This basically means that you can complete the course as quickly as you can press the next button and pass a few simple quizzes. It is not out of the question for you to do so within 1 or 2 hours. Of course, you should take your time and go through it slowly, but as long as you pass the quizzes, no one is going to bother you to get it done quickly. Unfortunately, in other states such as Texas, a course update is required by law so that your 6-hour course will unfortunately take another 6 hours. This is accomplished by placing page timers on each page and you are unable to progress until the update reaches zero. If that sounds super boring, you're right it is. However, it's not something aceable has in their course to be just difficult. All defensive driving courses in Texas will require an insuro instead. The good news is, Aceable is the fastest online defensive driving course allowed in Texas and they also offer video versions if you prefer to spend your time watching videos instead of reading. So the short answer is that it depends on your condition, but plan anywhere from a minimum of 1 hour to a maximum of 6. Final thoughts on the aceable online traffic school course We were obviously a little biased in this review, but in case you didn't catch it, this is our favorite online traffic school for each state where it is certified. This course is fast, easy, cheap, and no one can touch their customer support in case of problems. They also have a refund guarantee, so even if you don't like them after signing up, you can still get your money back. Aceable easily gets our highest 5 out of 5 star rating. Assessment.
